## CONTENIDO

### VOLUME 221 No. 1, JANUARY 2012

- 38     **A Thing or Two About Twins.**  
Twins could unlock the secret to how genes and the environment interact to make us who we are.  
*Peter Miller.*  
*Photographs by Jodi Cobb and Martin Schoeller.*
- 66     **Panama's Big Dig.**  
At an ancient cemetery, gold is surfacing so fast the archaeologist is tempted to yell, Stop, stop!  
*A. R. Williams*  
*Photographs by David Convetry.*
- 82     **The Cold Patrol.**  
It's 25° below zero. The dogs are unruly. Polar bears lurk. Pay is low. Yet Danes proudly serve.  
*Michael Finkel.*  
*Photographs by Fritz Hoffmann.*
- 96     **The Healing Fields.**  
"One less land mine, one less child without a leg". Cambodia recovers from the scourge of mines.  
*Mark Jenkins.*  
*Photographs by Lynn Johnson.*
- 116    **Hyperactive Zone.**  
Africa's Afar depression has swallowed camels, spit up a lava lake, and created precious salt.  
*Virginia Morell.*  
*Photographs by George Steinmetz.*
- 128    **Hanging On in the Hi-Line.**  
Hype brought a flood of Montana homesteaders. Their descendants still struggle with tough terrain.  
*David Quammen.*  
*Photographs by William Albert Allard.*

## **DEPARTMENTS**

4 **Editor's Note.**

6 **Letters.**

8 **National Geographic on TV.**

9 **Explorers Journal.**

12 **VISIONS**

18 **Field Test.**

20 **Your Shot.**

24 **NOW**

### **A Mole's Sixth Digit.**

The mammal's pseudthumb is a boon for burrowing.

### **Tsunami Debris.**

It's floating to North America.

### **Unshrunk Head.**

For the first time, features have been reconstructed.

### **Goat Mowers.**

Got weeds? Call in a herd.

### **Paging Dr. Panda.**

Caregivers at a Chinese reserve don panda suits.

33 **NEXT**

### **Drilling Deep.**

Scientists aim to unearth green rock that could tell how the planet formed.

### **Shaved Ice.**

A robotic submarine measures the melting of Antarctic glacier bottoms.

### **Bacteria Save Murals.**

There's no sun, no rain, no soli. What's the secret to space station farming?

### **Mimicking Sharkskin.**

Medical devices and paint take a lesson from the overlapping scales.

150 **NG Connect.**

152 **The Moment.**

**Flashback.**

### **ON THE COVER**

Identical twins Katie (at left) and Sarah parks, age ten, have their differences. Sarah the more talkative of the two, was diagnosed with type 1 diabetes at age three. Quieter Katie does not have the disease, which has a genetic component as well as environmental triggers.
