

SCIENCE & CHILDREN

CONTENIDO

VOLUME 48 No. 9, SUMMER 2011

The symbol ● identifies content related to this issue's focus:

ASSESSING INQUIRY LEARNING

GRADES K - 2

● 26

Feed Up, Feedback, and Feed Forward.

How one teacher assesses her kindergarteners during a unit on conservation
Douglas Fisher and Nancy Frey.

GRADES 3 - 5

● 31

Whoooo Knew?

Assessment strategies for inquiry science.
Ellen Schiller and Jacque Melin.

GRADES PREK - 2

● 38

Museum Connctions.

A self-assessment tool helps teachers structure their students' learning environments.
Laurel N. Schrementi.

GRADES K - 2

● 44

Capitalizing on Curiosity.

The pursuit for understanding the science during children's inquiry experiences.
Adam Devitt.

GRADES K - 5

● 48

Step Up to Full Inquiry

Five guidelines for designing inquiry lessons with any grade level.
Jill Jensen and Cathy Kindem.

GRADES 3 - 6

● 54

The Case of Lobster Shell Disease.

Incorporating science standards into problem-based learning modules.
Shawna Hollen, Jaime L. Tiney, Daniel Bisaccio, Karen Marie Haberstroh, and Timothy Hermert.

GRADES K-5

60

Shifting to an Inquiry-Based Experience.

Start small and experiment using this prescriptive method.
Gregory Corder and Julie Slykhuis.
