

SCIENCE & CHILDREN

CONTENIDO

VOLUME 49 No. 6 FEBRUARY 2012

The symbol ● identifies content related to this issue's focus:

GETTING FAMILIES INVOLVED

GRADES K - 6

● 32

Bringing Antarctica Home.

A virtual expedition brings polar science to students, and parents to school.
Juanita Constible, Lauren Williams, Jaime Faure, and Richard E. Lee Jr.

GRADES K - 6

● 37

Science Sacks.

A parent initiative brings learning home with ease.
Kimberlee Freudenberg.

GRADES 4 - 6

● 42

Aligning the STARS.

A partnership brings a community together for a night of astronomy.
Jeff Thomas and Katie White.

GRADES K - 6

● 47

It's Tradition!

How one districtwide evening evolved into years of family science at the school level.
Eva M. Ogens and Christine Padilla.

GRADES 4 - 6

● 50

Never Too Cool for School.

Involving parents of older children in the science classroom.
Patricia Littlejohn.

GRADES 4 - 6

● 54

Weekend Science Project.

Fifth graders and their families are engaged as an extension of an ecology lab.
Karey Santos.

GRADES 4 - 6

● 58

Reinventing the... Bridge.

Modifying the family science night concept mimics the engineering design process and connects families to the science curriculum.
Cecilia Owens and Erin Ash Sullivan.

GRADES K – 6

- 62 **Lab With Dad.**
A simple idea encourages family involvement.
Brenda Havers and Karen Delmotte.

TEACHER RESOURCES

- 10 **The Second Dimension: Crosscutting Concepts.**
Richard A. Duschl.
- 17 **In the News**
- 22 **Teaching Through Trade Books**
What's the Matter?
- 26 **Early Years.**
Send-Home Science.
- 28 **Formative Assessment Probes.**
Seeing the Light.
- 65 **Recognizing Excellence.**
STEM Day in the Park.
- 70 **Science 101.**
How does the human eye work?
- 76 **Science Shorts.**
Does the Moon Still Matter?
- 79 **NSTA Recommends.**

IN EVERY ISSUE

- 6 **Editor's Note**
- 16 **Call for Papers**
- 84 **Advertisers Index**

We know students learn better when parents support their education. This issue celebrates diverse strategies for connecting families to their children's science learning.
