- 78     **NSTA Call for Volunteers.**
- 84     **Index of Advertisers**

## **COVER**

Outside our classrooms, students are awash in sensory experiences. They are on Facebook, on their cell phones, on the internet, or in front of the TV. They text, tweet, play video games, listen to music: The list goes on and on, How can you compete with all that? This issue of The Science Teacher is your guide to motivating and engaging students, using some of these very tools. Read on for more ideas on teaching today’s teenagers!
