

THE SCIENCE TEACHER

CONTENIDO

VOLUME 78 No. 7 OCTOBER 2011

FEACTURES ON THE THEME

- 36 **Science in the 21st Century: More Than Just the Facts.**
An urban ecology curriculum for the high school classroom.
Jeremy F. Price, Diane Silva Pimentel, Katherine L. McNeill, Michael Barnett, and Eric Strauss.
- 42 **Science, Technology, and YA Lit.**
Three projects to develop environmental consciousness through reading and technology.
Karina Clemmons and Collen Sheehy.
- 46 **Customizing Curriculum With Digital Resources.**
An online system that combines digital library resources and traditional learning material.
Jeffrey Miller.
- 51 **The 21st-Century Oral Presentation Tool Bag.**
How to effectively implement oral presentations in your science classroom.
Frank LaBanca.

ALSO IN THIS ISSUE.

- 56 **Secret in the Margins: Rutherford's Gold Foil Experiment.**
A 5E lesson on the nature of science.
Sevgi Aydin and Deborah L. Hanuscin.

DEPARTAMENTS

- 6 **Editor's Corner**
21st-Century Skills.
- 8 **Safer Science**
Pregnant in the Laboratory.
- 10 **Science 2.0**
Combine Your Technologies for 21st- Century Results.
- 4 **The Green Room**
Start an Environmental Club.
- 18 **The New Teacher's Toolbox.**

Making Your Mark.

16

Headline Science

Influenza B Virus • Emerging Sunspots • Carbon Uptake • Nuance to Neurons • Graphene's Adhesion Properties • Exercise Resolutions • Japanese Asteroid • Nickel Nanoparticles • New Imaging Method • Hidden Soil Fungus.

64

Idea Bank.

Getting Up to Speed.

68

Career of the Month.

An Interview With Visualization Scientist Carter Emmart.

72

NSTA Recommends.

COVER

In the rush of daily life and work in the 21st century, it's easy for teachers to get wrapped up in grades, lesson plans, meetings, e-mail, and day-to-day business. But it's important to occasionally step back and address questions such as, "Are we preparing students for the world they will face upon graduation and beyond?" This issue of *The Science Teacher* is your guide to the 21st-Century Tools that can not only help prepare students for the modern workplace and world but also provide them with a solid understanding of science content.
