

# SCIENCE SCOPE

## CONTENIDO

### VOLUME 33 No. 9, SUMMER 2010

#### SUMMER READING

- 14** **A Diverse Summer Reading List.**  
Celebrate the United Nation's International Year of Biodiversity by checking out some of the books on this year's summer Reading list.  
*Juliana Texley.*
- 17** **Visual Literacy in Science.**  
Teach students how to interpret the many types of graphics found in textbooks with these student Reading strategies.  
*Erin McTigue and Amanda Croix.*
- 23** **A Method for Understanding Their Method: Discovering Scientific Inquiry Through Biographies of Famous Scientists.**  
Explore the lives of scientists by introducing biographies into your curriculum.  
*Elizabeth Fairweather and Thomas Fairweather.*
- 31** **Fishbone Diagrams: Organize Reading Content With a "Bare Bones" Strategy.**  
Incorporate fishbone diagrams into your lesson plans to help students organize, connect, and analyze information uncovered while reading.  
*Renne Calry and James Wandersee.*
- 39** **Should We Continue Space Travel? A Technology-Supported Approach to Engaging Students.**  
Debate the pros and cons of continuing our explorations of space.  
*Jennifer Dosch and Gail Ingwalson.*
- 45** **Practical Ways to Assess and Change Students' Perceptions of Scientists.**  
Help students break the stereotypes associated with what scientists look like.  
*Melissa Dyehouse, Jillian T. Detwiler, Jianming Li, Krystal Madden Bandy, Deborah Bennett, Amy Childress, and Jon Harbor.*

#### Departments

- 1** **Editor's Roundtable.**
- Reading is fundamental — to science.

- 6      **Scope's Scoops**  
*Science in the news*  
Male antelopes deceive females to increase their chances of mating.  
  
Eclipsing binary star system discovered.
- 8      **Green Science.**  
*Environmentally friendly and sustainable science.*  
  
How green is your lawn?
- 54     **Science Sampler.**  
▪ Annotated reading.  
▪ Teaching toward a more scientifically literate society.  
▪ Bees in the news.  
▪ Introducing 21<sup>st</sup> century research and information literacy skills: A yearlong process.
- 74     **Tried and True.**  
*Classic demonstrations and experiments.*  
Teaching the practice of science, unteaching the scientific method.
- 80     **Scope on Safety.**  
*Creating a safer science lab and classroom.*  
NSTA's portal into the safety zone.
- 82     **Tech trek.**  
*A look at the latest classroom technology.*  
Hang up and learn: Cell phones in the science classroom.
- 86     **Scope on the Skies**  
*Astronomy throughout the year.*  
Bird watching.
- 96     **NSTA Recommends**  
Reviews of the latest resources
- 108    **Mystery Photo**  
Can you identify this image?

## **ON THE COVER**

Page through this issue to discover reading strategies you can implement in the fall to improve student comprehension, retention, and don't forget to check out this year's recommendation for your summer reading list compiled by the lead editor of NSTA Recommends.
