

# ***THE SCIENTIST***

## CONTENIDO

VOLUMEN 26 No. 10, OCTOBER 2012

### FEATURES

- 29 **Lamarck and the Missing Lnc.**  
Epigenetic changes accrued over an organism's lifetime may leave a permanent heritable mark on the genome, through the help of long noncoding RNAs.  
*Kevin V. Morris.*
- 34 **Obama's Science Report Card.**  
A look at what the President Achieved during his first term in the areas of health, space science, energy, environment, and science education.  
*The Scientist Staff.*
- 42 **Pixel Perfect.**  
Presenting the best life science images and videos of 2012.  
*The Scientist Staff.*

### DEPARTMENTS

- 10 **From the Editorial**  
**Mission: Possible.**  
Cooperation, not competition, is the way forward.  
*Mary Beth Aberlin.*
- 15 **Notebook**  
**Death Match; The Science of Stowaways; Like Father, Like Son; Home Cookin'.**
- 23 **Critic at Large.**  
**Science and Democracy.**  
Researchers and conscientious citizens must unite against the partisan rancor in American politics and restore the role of scientific information in policymaking.  
*Lewis M. Branscomb and Andrew A. Rosenberg.*
- 26 **Critic at Large.**  
**Medicines for the World.**  
A global R&D treaty could boost innovation and improve the health of the world's poor — and rich.  
*Suerie Moon & Ellen 'T Hoen.*
- 28 **Modus Operandi.**  
**Live-Action Networks.**  
Mass spec plus novel software equals dynamic views into the chemical lives of microbes.  
*Ruth Williams.*

- 50 **The Literature**  
**Gap closure by epithelial cells; drug hypersensitivity and HLA type; male/female brain differences.**
- 52 **Profile.**  
**(Re) Programming Director.**  
Unwilling to accept the finality of terminal differentiation, Helen Blau has honed techniques that showcase the flexibility of cells to adopt different identities.  
*Karen Hopkin.*
- 55 **Scientist to Watch.**  
**Tiago Branco.**  
*Hayley Dunning.*
- 56 **Lab Tools**  
**The Sharper Image.**  
Advances in light microscopy allow the mapping of cell migration during embryogenesis and capture dynamic processes at the cellular level.  
*Jeffrey M. Perkel.*
- 59 **Lab Tools.**  
**“Alive” and in Focus.**  
Imaging viruses in action.  
*Sarah Webb.*
- 62 **Careers.**  
**So You Want to Write a Book?**  
Advice on authoring a textbook, popular nonfiction, or even a novel.  
*Jef Akst.*
- 66 **Reading Frames.**  
**True Colors.**  
The biological and social ramifications of skin pigmentation are too often ignored by scientists, teachers, and the general public.  
*Nina G. Jablonski.*
- Capsule Reviews.**  
*Annie Gottlieb.*
- 84 **Foundations.**  
**Gone Missing, circa 1892.**  
*Hayley Dinning.*
- IN EVERY ISSUE**
- 9 **Contributors**
- 12 **Speaking of Science.**
- 71 **The Guide.**
- 80 **Recruitment.**
