

# ***THE SCIENTIST***

## CONTENIDO

VOLUMEN 27 No. 5, MAY 2013

### FEATURES

- 32 **The Science of Stretch.**  
The study of connective tissue is shedding light on pain and providing new explanations for alternative medicine.  
*Helene M. Langevin.*
- 38 **Live Wires.**  
Discoveries of microbial communities that transfer electrons between cells and across relatively long distances are launching a new field of microbiology.  
*Mohamed Y. El-Naggar and Steven E. Finkel.*
- 44 **Why So Soon?**  
Researchers are using modern experimental tools to probe the mysterious molecular pathways that lead to premature labor and birth.  
*Bob Grant.*

### DEPARTMENTS

- 13 **From the Editorial**  
**We're All Connected.**  
A look at some of biology's communication networks.  
*Mary Beth Aberlin.*
- 17 **Notebook**  
**Bog-Bird Brain; IDing War Victims: Little White and the Three Toxins; Ancient Appearances.**
- 26 **Critic at Large.**  
**Researchers, Hire Hackers.**  
Clinical researchers need programming support to streamline their work, minimize error in the data, and find new trends that can point to better treatments.  
*Zeke Nierenberg and Martina Steurer-Muller.*
- 28 **Critic at Large.**  
**On Being an "African American Scientist".**

To gain equal opportunities in science, even subtle cases of differential treatment must be stamped out.

*Raynard S. Kington.*

31

**Modus Operandi.**

**BRET Meets FRET.**

Biocompatible, self-luminescing nanoparticles for in vivo imaging.

*Ruth Williams.*

52

**The Literature.**

**Dynein motor proteins work in teams; extracellular mycovirus transmission; recurring seizures linked to macrophage presence.**

54

**Profile.**

**The Organist.**

When molecular biology methods failed her, Sangeeta Bhatia turned to engineering and microfabrication to build a liver from scratch.

*Megan Scudellari.*

57

**Scientist to Watch.**

**Gregory Sonnenberg.**

*Dan Cossins.*

58

**Lab Tools**

**Suited to a T.**

Methods for studying single T cells.

*Kelly Rea Chi.*

61

**Lab Tools**

**Down for the Count.**

Streamlining colony and plaque counting.

*Amber Dance.*

65

**Bio Business.**

**How Safe IS Your Medicine Cabinet?**

Clinicians and regulators push to fix critical weaknesses in the FDA's monitoring system for approved drugs.

*Megan Scudellari.*

68

**Reading Frames.**

**The King of Turtles.**

American naturalist Louis Agassiz had a zeal for collecting that encouraged a nation to engage with nature.

*Christoph Irmischer.*

**Capsule Reviews.**

*Annie Gottlieb.*

80

**Foundations.**

**Flying Frog, 1855.**

*Kate Yandell.*

**IN EVERY ISSUE**

- 11 **Contributors.**
- 14 **Speaking of Science.**
- 70 **The Guide.**
- 79 **Recruitment.**
