

RECORDING

CONTENIDO

VOLUME 24 No. 9, JUNE 2011

FEATURES

- 12 Converting An Office Room Into A Studio.**
Floating walls and floor turn a corner office suite into a great-sounding, acoustically isolated studio. Lots of great ideas here, illustrated from start to finish.
Otso Pakarinen.
- 30 Room Correction — An Overview.**
What's really going on in your room, and which tools can hurt more than they help?
Scott Dorsey.
- 36 Building A Recording Studio.**
When a large empty space is converted into a recording studio, there are many lessons to be learned...starting with the importance of getting the electrical wiring right.
Brian Tarquin.
- 50 SXSW 2011.**
It's that time of year again! Austin swarms with great music, great networking, and great business... and we're there to point out some of the highlights
Report by *Marc Urselli.*
- 58 DAW Details.**
We walk you through the powerful and convenient Smart Tools in Cakewalk SONAR X1.
Michael Nickolas.
- 62 It's Your Music — Know Your Rights. Chapter 15: Licensing Music for Motion Pictures and Television.**
Soundtrack contributions can mean big money; make sure you know what to do to secure your rights and income before you let your music be used in a film or TV release.
Todd Gascon and Bruce Kaphan.
