

SCIENTRIFVIC

CONTENIDO

No. 65, JANUARY–FEBRUARY 2010

FEACTURES

- 6 On average, people fart 14 times a day.
- 7 A worm can eat up to half its body weight a day.
- 8 Electricity is usually a flow of electrons. Electrons are negatively charged particles that are so small you can't see them!
- 10 The planet Venus has ancient volcanoes on its surface. From above, some of them look a bit like pancakes.
- 14 Tiny robots, smaller than the width of a human hair, could one day repair our bodies.
- 18 The mountain ash trees in Victoria are among the tallest trees in the world. Taller than a 25 – storey building, they tower an incredible 90 metres above the ground.

Hands-on activities

- 22 Set Sail!
- 26 Breakfast Science.
