

SCIENTRIFFIC

CONTENIDO

No. 66, MARCH-APRIL 2010

FEACTURES

- 4 Scientists have invented a gadget that can trap rainbows.
- 5 Vultures wee on their legs to keep themselves cool.
- 10 Planets found outside our solar system are called exoplanets.
- 12 The thorny devil uses its entire body to collect drinking water.
- 15 It's possible to reduce your energy use by making some small changes.
- 16 While you're asleep, your muscles are paralysed by your brain. So even if you're dreaming of being active, your body is still.

Hands-on activities

- 22 **Sea in 3D.**
- 24 **Grass Heads.**
- 26 **Fruit Straps.**

COVER IMAGE

Like the cover? Liam. One of our designers had a bit of fun stitching together this image in Photoshop. But seriously, is the Moon landing science fact...or science fiction? Make up your own mind. Story on page 18.

- 36 Puzzles.
- 37 Crossword.
- 38 Competitions and free.
- 39 Kids bits.
