

AUSTRALASIAN SCIENCE

CONTENIDO

VOLUMEN 31 No. 7, SEPTEMBER/OCTOBER, 2010

FEATURES

- 14 **The Rise of Intelligence.**
What were the influences that drove the evolution of intelligence in humans?
Kin Sterelny.
- 18 **Life On Mars?**
New NASA claims of Martian life in a meteorite discovered in Antarctica haven't convinced astrobiologists.
Morris Jones.
- 20 **Desert Fireballs.**
An Intelligent camera system has been set up to track and recover meteorites in the Nullarbor.
Alex Bevan, Philip Bland & Pavel Spurný.
- 24 **A New Reason to Lose Sleep.**
Are people with sleep apnoea prone to brain injury from oxygen deprivation?
Caroline Rea.
- 27 **Fire, Erosion and the End of the Megafauna.**
Tasmania's erosion history links ancient Aboriginal burning practices with the demise of Tasmania's megafauna.
Peter D. McIntosh.
- 30 **Lie to Me.**
Will brain scans revolutionise our legal system?
Michael Cook.
- 33 **The Double-Edged Sword of Technology.**
When questions of population growth and sustainability are debated, the silver bullet of technological progress is usually proposed or implied. But historical evidence and simulations of the future demonstrate the danger of relying on technology.
Graham M. Turner.

- 36 **Fruit Extracts Help Exercise Recovery and Asthma.**
Natural fruit compounds may balance the impacts that exercise can have on the body and help breathing in some types of asthma.
Roger Hurst.

conSCIENCE

- 38 **The Aristotle Swan Test.**
Students from school to university should be learning the essential skills of critical thinking.
Paul Waring.

REGULAR COLUMNS

- 3 **Simon Says**
Our most successful television program provides insights into the Australian state of mind.
- 4 **Browse**
A round-up of the latest science news from our shores.
- 39 **Publish or Perish.**
Your guide to new science books publishes this month.
- 40 **Cool Careers.**
Trevor Barry has demonstrated that space and astronomy communities around the world.
- 42 **Out of this World.**
Dave Reneke brings news from the space and astronomy communities around the month.
- 44 **Australasian Sky.**
Your map of the night sky this month.
- 45 **The Naked Skeptic.**
Research published recently in a reputable scientific journal suggests that acupuncture could have an analgesic effect on mice
- 46 **Eco Logic**
The conservation movement is often too busy stopping others from getting what they want, and doesn't spend enough time trying to make its own progress. Maybe it's time to create a clear set of objectives with plans on how to deliver those objectives.
- 47 **Low Tech.**

Growth in GDP could pay for the entire electricity system to be converted to a mix of renewable by 2020.

48

Quandary.

A blood test for Down's syndrome claims to be the "Holy Grail" of prenatal testing.
