

AUSTRALASIAN SCIENCE

CONTENIDO

VOLUMEN 32 No. 4, MAY, 2011

FEATURES

- 16 **Smarter than Smartphones?**
New technology is untangling the complex network of patents at the centre of a litigation war between smartphone companies.
Mike Lloyd.
- 19 **The Evolution of the Inadequate Modern Male.**
The superior strength, endurance and eyesight of ancient humans reveals that the weak have now inherited the Earth.
Peter McAllister.
- 22 **Hormones in Meat: Science or Spin?**
Is the decision by supermarket giant Coles to sell only meat that is free of growth promoters based on science or just a clever marketing ploy?
Kate Osborne.
- 25 **A Blind Eye to Love.**
Lack of interest in holding a mother's gaze may be an early indicator of problems to come, such as serious crime, violence and drug-taking.
Bob Beale.
- 28 **The Orbital Junkyard.**
Satellites are under threat from about 500,000 pieces of space junk, but new Australian technology can now track the orbit of debris as small as 1 cm to within 1 metre.
Stephen Luntz.
- 31 **Conducting Plastics for the Bionic Man.**
Plastics that conduct electricity could bring the bionic man from science fiction to reality.
Rylie Green.
- 34 **Ice, an Asteroid Impact and the Rise of Complex Life.**
An asteroid impact in southern Australia is redefining the conditions that preceded the explosion of multicellular life more than 500 million years ago.
Victor Gostin, David McKirdy and George Williams.

conSCIENCE

4 **IT Savvy, But Stupid.**

In an age of information abundance there is a deficit of wisdom.
Edward H. Spence.

REGULAR COLUMNS

3 **Simon Says**

The buck stops with “ordinary taxpayers” when it comes to paying for carbon emissions.

5 **Browse**

A round-up of the latest science news from our shores.

37 **Cool Careers.**

Astrophysics and banking have a lot more in common than you’d ever imagine.

38 **Chemical Solutions.**

Australians have featured prominently in lists identifying the most cited chemists of the past decade.

39 **Publish or Perish.**

Your guide to new science books publishes this month.

40 **Australasian Sky.**

Your map of the night sky this month.

41 **Out of this World.**

Dave Reneke brings news from the space and astronomy communities around the world.

42 **Directions.**

It’s time to review how government receives its scientific advice following the resignation of Chief Scientific Penny Sackett.

43 **Expert Opinion.**

Experts answer questions about the carbon trading scheme announced by the Australian government.

44 **The Naked Skeptic.**

Science is a search for truth, but three filters can prevent the truth from being recognised.

- 45 **Eureka!**
Dominant crickets sing to attract mates, but if they lose a battle and become subordinate they fall silent and rely on body odour.
- 46 **Eco Logic.**
Building an effective and self-supporting network of conservation research professionals across the region could prove to be Australia's greatest biodiversity legacy.
- 47 **Low Tech.**
Australia is lagging behind the rest of the world in setting fuel efficiency targets for new cars.
- 48 **Quandary.**
War turns the ethics of doctors on its head.
